VIRGINIA BEACH - WILLIAMSBURG

Williamsburg is an amazing small city with a lot of history and action! It is close to Virginia Beach and Washington DC. There are restaurants, shops, and an unending history of American life, as well as incredible amusement parks (Busch Gardens and Water World!) nearby. You will not be bored in this area of the country! There are hundreds of tours, monuments and historic reenactments. There even was a surprise visit by Jackie Chan few years ago.

Williamsburg has a small-city feel. You won't find nightclubs here, but there are plenty of bars and restaurants. If you're looking for the action and adventure that a BIG city has to offer, this might not be the best place for you. This is a bit more relaxed and laid back - after all, the city is based around the historic interpretation of a Colonial American city during the Revolutionary War period.
